WIRE MESH BASKETS

Rectangular Baskets- Made with extra-fine wire mesh, these miniature baskets are perfect for keeping small parts together during cleaning and storage. They're constructed of corrosion-resistant Type 316 stainless steel and are electro-polished and buffed to ensure a smooth finish that won't scratch equipment. Baskets stack for easy storage. Baskets have a non-removable lid. All have 1/2" long legs and 1-1/2" high handles. Place baskets inside larger basket to wash small nuts, bolts and other small parts

A	x B	x C	Cap Lbs	MESH SIZE	ITEM#
8.68	6.68	3	10	.028 wire x .072 opening	#53800
8.68	6.68	3	10	.025 wire x .225 opening	#53801
6.68	4.68	2	5	.028 wire x .072 opening	#53802
6.68	4.68	2	5	.025 wire x .225 opening	#53803

PERFORATED METAL BASKETS

Perforated sheet metal construction makes these baskets more rigid and durable than wire mesh. Use them for degreasing, cleaning, plating, and rinsing parts. All have a commercial-grade unpolished finish. **Rectangular baskets** have a hinged cover that holds parts inside. All surfaces have 3/32" dia. perforations.
