

# Upgraded Power Blast Manifold Linkage

High Strength Parts for Your MART

MART Tech Services has developed and improved the PBM crank arms from studies of field problems. The result is our newly designed manifold crank system for the MART Parts Washer.

## Features:

- Extra Heavy Stainless Steel Short & Long Crank Arms.
- Fully Machined for durability and strength.

- Short Arm fitted with Nylok patch provides locking for set screw and extra long thread engagement in arm prevents strip out. Part Number T40 and up # 69299

- Long arm clamp improved with 4 High Strength cap screws guaranteed not to slip. Part Number # 69295
